## Venetian smoothing techniques and lime moulding

Venice! City of romance and nostalgia. Venice as beauty incarnate and accomplished life style. Up to now we marvel at the gorgeous constructions from the ancient world, the Gothic and the Renaissance. Exceptionally the aesthetic, noble appearing and visionary wall coatings of all ages are fascinating. Certainly only a few people have the comfort to live in an original-style Venetian palazzo.

Thanks to Knauf Stucco Design and Knauf Marble Design the incomparable ambience of Venetian life style can be realized in nearly every accommodation.

Knauf reinterprets the classical archetypes with up to date techniques. Today impressively coatings in Mediterranean design can easily and economically be obtained by using Knauf materials. By the way there is no need to abstain from the environmentally compatible building materials like lime coatings. Your clients will be ardent.

## Knauf Marble Design - For matt and semi gloss surfaces

Knauf Marble Design is a modern lime moulding technique based upon high-quality matured calcium hydroxide and natural soils dyed in various shades with mineral pigments. The idea to develop a material like Knauf Marble Design was to design exclusive accommodations very easy, fast and thereby very economically.

Walls and ceilings, designed with Knauf Marble Design provide a natural marbling effect with luminosity and profundity. The mineral-flossy surface induces Mediterranean life style in combination with highly environmentally compatible building materials like lime coatings are. According to the application techniques either a matt or semi gloss surface can easily be obtained.

Real antique-like surfaces with a marble gloss effect are created, when the Knauf Marble Design surface is sealed and polished up with Knauf Antique Soap.

### **Knauf Marble Design**

- Ready to use material for modern lime moulding technique based upon high-quality matured calcium hydroxide and natural soils dyed in various shades with mineral pigments.
- Provides a natural marbling effect with luminosity and profundity.
- For matt or semi gloss surfaces.
- Excellent water-vapour-diffusing properties, non-cracking, economical and easy to apply.

## Knauf Stucco Design - For porcelain-smooth surfaces with brilliance

Knauf Stucco Design is a ready to use mineral dispersion-based smoothing filler for original-style Venetian smoothing techniques. Within applying only two thin layers a premium, porcelain-smooth surface in original style of Venetian smoothing techniques is obtained.

The idea to develop a material like Knauf Stucco Design was to design premium Venetian smoothing techniques very easy, fast and thereby very economically. Even the imitation of polished natural stones succeeds pretty easy and the best: it is nearly impossible to see the difference between the origin and the imitate!

Walls and ceilings, designed with Knauf Stucco Design provide a bright marbling effect with high luminosity and profundity. The bright surface induces Venetian life style in combination with environmentally compatible building materials.

Real mirror-like polished surfaces are created, when the Knauf Stucco Design surface is polished up with Knauf Stucco Protector.

# Application of Knauf Stucco Design

Prime substrates with Knauf Sperrgrund Block & Bond.

Apply the first layer of Knauf Stucco Design with Venetian smoothing trowel (crossways) thinly.

After drying the first layer apply the second layer the same way until the desired gloss level is reached.

Then dry sand down by hand with P1200 grit sandpaper.

Remove dust and polish to a high gloss with the Venetian smoothing trowel.

Alternative: manually sand down with P1200, remove dust and finally sand down using P2000 with the Rotex RO 150 FEQ of Festool.

## Knauf Stucco Design

- Ready to use mineral dispersion-based smoothing filler for original-style Venetian smoothing techniques pigmented in various shades.
- Provides porcelain-smooth surfaces with high brilliance, luminosity and profundity.
- Good filling, high-grade polishable, non-cracking, non-flammable.
- Excellent water-vapour-diffusing properties, economical and easy to apply.
- When used in combination with Knauf Stucco Protector, surfaces polished up to mirror finish can be created.

## Knauf Stucco Design Accessories:

- Knauf Filler to Finish - to obtain very smooth substrates
- Knauf Sperrgrund Block & Bond - for priming substrates
