VADO	310

| Wave Pedestal

STONE VESSELS, PEDESTAL SINKS AND VANITIES:

Stone Forest vessel sinks are carved from a single block of natural stone. Each sink will reflect the individual character of the block from which it was carved as well as the inspiration of the craftsman. Much of the carving is done by hand with calculated blows from a hammer and chisel. We do use some small diamond saws and hand-held polishing tools, but because the sinks are not "machined" each will be a little different.

COPPER AND STAINLESS BASINS:

Stone Forest copper and stainless basins are distinctive in design and exceptional in construction. The copper basins are created from heavy 16 gauge copper sheeting and the stainless from 18 gauge. The sturdy double-wall construction of most Stone Forest metal designs gives the sinks a substantial look, and the hammered, oxidized exterior suggest Old World craftsmanship. Some finishing marks, solder spots, minor pitting, and small impressions are the distinguishing traits of our handcrafted metal sinks and reveal the unique nature of each piece. Stone Forest copper basins have a living finish, which evolves over time. All Stone Forest copper basins are made from 100% recycled materials and are 99.2% pure copper (standard).

BRONZE BASINS:

Stone Forest's unique bronze basins are formed by using traditional sandcasting methods. Each bronze basin is then finished, patinated and waxed by hand. Our bronze basins have a living finish that evolves over time. All Stone Forest bronze basins are made from 100% recycled materials.

As the marbles have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

Note : The basins in this series do not have an overflow or tap holes - unless otherwise specified

Beneficial effects of 7 colours on the body and mind: Colours have always been a part of our world. They are a vital force and source of energy.

Cromotherapy stimulates the body and the mind, helping to restore their natural balance.

The control keyboard for cromotherapy is water proof, so the box may be positioned either inside or outside your shower box.

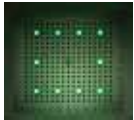

Dream-Light Shower Heads with RGB LED lights, including low voltage transformer, control keyboard for Cromotherapy and flexible water connection.
