## DWA8011R 355mm CHOPSAW WHEEL

**30%  
MORE LIFE**

**NEW**

**Proprietary grain mix and formulation –**  
more life & high productivity

**3mm Thickness –**  
lesser material removal,  
so less wastage & cost effective

**Four High Durability  
Ring Holding points –**  
Uniform stress on the  
Disc which avoids breakage

**Single reinforced  
Design –**  
Value for money

### APPLICATIONS:

- Burr free cutting in ferrous materials.
- Suitable for construction applications like Re-bar cutting, hollow pipe cutting for grills.

### FEATURES:

- Thin wheel design for burr free cutting 3mm thickness.
- Aluminum oxide formulation for fast cutting.

DIAMETER	355mm
THICKNESS	3mm
ARBOR	25.4mm
GRIT	A30RBF
APPLICATION	Fast General Purpose Metal Cutting
MAX RPM	4,400
PACK	10

# DEWALT®

## HSS-G DIN 338 JOBBER METAL DRILL BIT

### LIST OF HSS-G DIN 338 JOBBER METAL DRILL BITS

Cat No	Diameter mm	Length mm	Working Length mm	Pack Qty
DT50465-XJ	1.0	34	12	10
DT50466-XJ	1.5	40	18	10

DEWALT is extending its high-performance technology to include the new HSS-G DIN 338 Jobber Metal Drill Bits Series. Its groundbreaking design combines 135° point angle tip for precision, diameter tolerance to h8 grade for excellent concentricity, and precision ground twist body for longer life and rapid drilling.

### FEATURES & BENEFITS

- **PRECISION**  
135° point angle - enables self centering & eliminates walking
- **ABILITY TO BE RESHARPENED**  
Bit tip can be resharpened to restore profile and sharpness
- **LONGER LIFE & RAPID DRILLING**  
Precision ground twist – better debris removal - longer life & rapid drilling
- **CONCENTRICITY**  
Diameter tolerance to h8 grade – concentricity – Accurate hole diameter

The new HSS-G DIN 338 Jobber Metal Drill Bits deliver rapid drilling, long life & excellent concentricity through precision ground twist drill from solid stock right hand cutting, Type N flute with 135° point angle and diameter tolerance to h8 grade.

### COMPATIBLE POWER TOOLS
