Step-Saver™ Stairlift

Residential Access

The **Best Technology in Stairlifts**

If handling stairs in your home is difficult or unsafe, let **Savaria** save you the trouble and pain of struggling up and down. With its smooth rack and pinion drive and battery power, "**Step-Saver**" can effortlessly take you up and down a straight stairway, even during a power outage. Its neutral color and modern appearance can coordinate with practically any décor, and its slim rail and carriage save room on the steps to allow others access past the lift.

I will carry
you safely.

"My walking limitations had made it difficult to get up and down the stairs in my home. Step-Saver™ has truly lived up to its name and made my life safer and more comfortable, not to mention that the installation took about one hour."

Judith T. Jones

Step-Saver™ Stairlift

Standard Equipment

- Support posts anchored to stair threads (not mounted to wall)
- Rigid aluminum extruded rail
- **Adjustable width between armrests from 18" to 21" wide (457 to 533 mm)**
