CABINS, SHEDS & SAUNAS

FINNISH QUALITY KNOWN WORLDWIDE

Finland is the world's leading manufacturer of log buildings.

NordStar Trading works with one of the largest manufacturers, Luoman Puutuote Oy. They manufacture more than 70,000 cabins & sheds yearly. Nearly 90% of their production is exported worldwide.

The sheds & smaller cabins are ideal for storage or as children's playhouses.

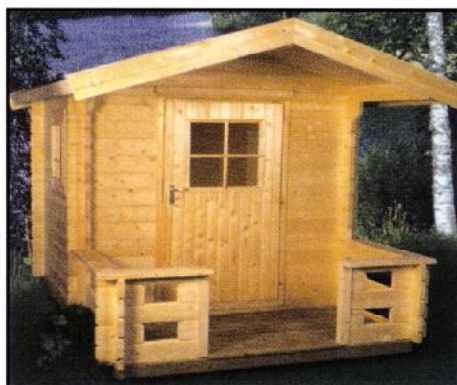

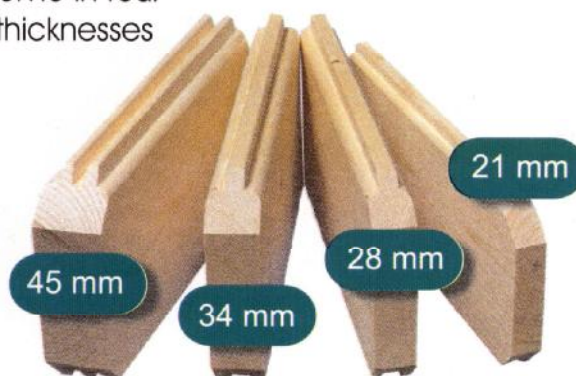

The larger versions are perfect as garden sheds, saunas, guest houses & BBQ or picnic chalets.

All cabins come complete from the factory in compact packages. Professional carpenters will assemble & paint them at your site.

SAUNA - THE FINNISH TRADITION

Sauna has been a tradition in Finland for more than 2000 years. Over the years sauna has become globally known for its healing and beautifying properties.

Sauna relieves pain in muscles and joints leaving the body relaxed and refreshed especially after a strenuous workout. Even high blood pressure can be temporarily relieved.

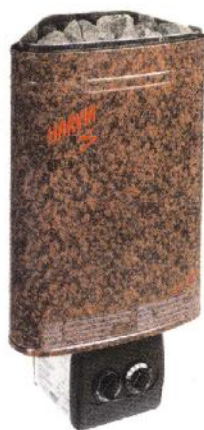

Sauna is a form of beauty treatment. Its heat opens up the pores in the skin allowing deep cleansing of the entire body. It softens the skin, keeping it healthy, young and firm.

A relaxing sauna bath in the evening is also known to promote a good nights sleep.

Harvia is one of the leading sauna and sauna equipment manufacturers in the world. NordStar Trading stocks an extensive range of sauna equipment and ready-made
