

HYDROPOOL Self-Cleaning Hot Tubs

**Creating time
for what matters**

HYDROPOOL
self-cleaning hot tubs

nothing rewards
your body and soul...

quite the same as **a Hydropool Self-Cleaning Hot Tub**

Let's face it, life gets busier and more demanding each day... it seems you never have time to rest. Imagine your own personal get-a-way, a place where you can relax, meditate, and enjoy quiet times... by yourself, with family or with friends. Feel the stress and tension seep out of your body as you sit back, stretch out, and let the combination of warm water, pulsating jets, and the natural buoyancy of water do their magic.

Indoors or out, a Hydropool Self-Cleaning Hot Tub will create more time for what matters. Whether in a corner of your home, in a solarium, conservatory or amidst your deck or backyard, a Hydropool Self-Cleaning Hot Tub will "rekindle" romance and relationships with family and friends.

HYDROPOOL
self-cleaning hot tubs

"We absolutely love the hot tub and it has provided countless hours of relaxation. It is definitely a great stress reliever."

Alan Hunt, Proud Owner of a Hydropool Hot Tub

a Hydropool Self-Cleaning Hot Tub

**will help you feel, work,
play and sleep better!**

**start your day
off right**

Imagine how much better your day will start when you slip into your own Hydropool Self-Cleaning Hot Tub for a few minutes each morning. Your circulation will improve, your muscles will relax and feel better, and your state of mind will be enhanced. You will be better prepared to face a hectic day at work, a workout at the gym or a round of golf at the club.

soothe those tired and aching muscles

The heat of your Hydropool Self-Cleaning Hot Tub results in collagen tissue becoming more flexible, benefiting many people with arthritic symptoms. Doctors have advised people with arthritis that soaking in warm water several times a day relaxes muscles and joints and helps induce restful sleep. The resulting stress and muscle tension relief has also led many migraine sufferers to claim that hot tub use reduces the frequency and severity of their headaches.

relieve stress & relax

When you're relaxing, you enjoy life more. It is easier to converse, share intimacies, smile and laugh. You'll look forward to your times in your hot tub. Hydropool Self-Cleaning Hot Tubs are also great for entertaining. Your guests will leave with fond memories of the time spent with you in your hot tub.

sleep better

The heat, improved blood circulation, tension relief, and quicker lactic acid removal will result in a comforting state of relaxation and tranquility, assisting you to sleep better at night.

"We call our hot tub 'Hydropool Heaven', after a long hard day at the office it's great coming home to our little piece of Heaven."

Brian & Wendy Chin Quan, Proud Owners of a Hydropool Hot Tub

exceeding your expectations with...
superior comfort and hydrotherapy.

For over 30 years Hydropool has evolved with what we call "continuous engineering". We strive to be the best and nothing less will do. The result is a hot tub renowned worldwide for quality and performance. All models are ergonomically designed for body support and comfort. Soft, comfortable pillows gently support your head and neck while wide, lumbar support seats cradle your body. Hydropool's unique Versa Massage hydrotherapy system adds the final touch, massaging every inch of your body.

A variety of deep bucket seats, higher cool down seats, comfortable bench seats and body form loungers give everyone a seat of choice. Extra large foot wells allow you to stretch out, relax and enjoy.

Hydropool strives to be the best with...
innovative design features.

the world's easiest hot tub to maintain is...

the Hydropool Self-Cleaning Hot Tub.

The technologically advanced self-cleaning system, simultaneously removes surface debris and cleans the bottom of the hot tub with it's built-in floor vacuum.

EXCLUSIVE

this is why self-cleaning matters...

Worrying about water care is a constant issue when maintaining a traditional hot tub, but with the Hydropool Self-Cleaning System, we take your worries away. The Self-Cleaning System cleanses 100% of the water every 15 minutes.

That's an incredible 8 times in 2 hours! Only a Hydropool has this wonderful technology in place with its consumers in mind. The Self-Cleaning System takes the worry and work away, with a hands free system to safeguard you and your family.

1 skimmer

Water from the surface of the hot tub is drawn into the high flow skimmer by the hot tub pump. This action skims the surface free of any floating debris and oils.

- Removes floating debris and oils.
- Increases filtration.
- Moves debris into pre-filter.

2 pre-filter

The pre-filter traps large particles and removes them prior to entering the hot tub pump and heating system.

- Prevents larger debris from clogging pump and heater.
- Safely traps jewelry or other items that may come loose from bathers.
- Extends micro-filter cleaning cycles.

3 floor vacuum

Dirt sinks to the bottom of the hot tub and is drawn into strategically placed vacuum holes by means of the hot tub pump.

- No need to vacuum the hot tub
- Water care products are effectively circulated
- Eliminates circulation dead spots

here's how most other hot tubs filter

With most other hot tubs, more than half of the water bypasses the filter, resulting in surface cleaning only! With no floor filtration, only the surface water is filtered and the user needs to regularly vacuum the bottom of the hot tub. Additionally, up to 50% of the water bypasses the filter and is re-circulated back into the hot tub without being cleaned.

4 mazzei injected ozone

When mixed with water, ozone is a highly effective oxidizer that assists in removing unwanted contaminants from the hot tub water.

- Dramatically reduces sanitizer usage
- Clearer, cleaner water
- Odorless and effortless

5 pressurized micro filtration

Almost all of the water drawn by the pump is forced through a 10 micron cartridge filter under pressure. The micro filter removes particles before sending the water back into the hot tub.

- Large size element results in extended cleaning cycles.
- Easy access while out of sight from bathers.
- 100% filtration every 15 minutes.
- No odor escapes during hot tub use.

6 automatic chemical feeder

Before the water re-enters the hot tub, the water is filtered and is then treated with chlorine or bromine that ensures that the hot tub water is safe and bacteria free.

- Protects bathers.
- Ensures crisp, clear water.
- Convenient and economical.

experience superior hydrotherapy with
Hydropool's Versa Massage.

EXCLUSIVE

Hydropool's medium, full-sized and over-sized stainless steel Versa massage Jets are fully adjustable and interchangeable.

Every body is different, each with its own unique needs and hydrotherapy requirements. Sometimes a gentle, wide-body massage is desired for general relaxation and stress relief, other times a penetrating high velocity flow is needed to invigorate and relieve tired or aching muscles. Hydropool's unique "Versa Massage"

combines the benefits of all the best jet sizes, types and designs available, ensuring you receive the customized massage just right for you. With the simple touch of a button, the swing of the Hydropool diverter valve, or turn of the adjustable jets, your Hydropool can be converted from a

gentle soothing all-body massage to an invigorating, penetrating massage specifically targeted to the muscles of your choice. Full force, gentle massage, or somewhere in between... the Hydropool "Versa Massage" gives you the choice to select your desired level of intensity.

1 choose your hydrotherapy series

Don't let other hot tub manufacturers tell you what to purchase. Your hydrotherapy needs are what matters and only Hydropool lets you choose exactly what is right for you. First, select the model that is the right size, color and interior configuration for your application. Then, select from a number of available hydrotherapy packages to complete your hot tub package that is customized just for you.

versa massage system has...

1 Easy to turn diverter selector valve directs water and monitors flow to the jets of your choice.

2 customized adjustable hydrotherapy

Hydropool's therapeutic X-treme therapy seats are fully adjustable for the ultimate full body massage. Many models include seats with over hanging shoulder jets to provide a strong, full upper back, shoulder and neck massage while foot and calf jets relieve foot and leg tension. Take a load off of your feet with Hydropool's adjustable foot jets and Reflexology Foot massage for the ultimate in relaxation and tension relief.

2 Top-side air controls allow you to dial in more air for greater intensity, or less air for a softer massage.

3 key hydrotherapy zones

A variety of deep bucket seats, higher cool down seats, comfortable bench seats and body form loungers give everyone a seat of choice. Extra large foot wells allow you to stretch out, relax and enjoy.

3 Micro directional jets provide finger-point massage. Micro pulsator jets provide invigorating massage.

4 premium waterfall jet with pillow

Hydropool Hot Tubs uniquely designed adjustable "Premium Water Fall Jet" releases the body's natural endorphins that act as natural pain killers and help relieve stress, headaches and pain. Simply turn the dedicated control valve that is located within arms reach of the seat and adjust the flow as desired.

5 customized and interchangeable stainless steel jets

The ultimate in Hydropool's Versa Massage is the ability to customize your hot tub to ensure optimum relief for your specific aches, pains or injuries. The Versa Massage System enables you to move jets and build your very own customized hydrotherapy system.

6 balanced hydraulic design

While many manufacturers market their hot tubs with large over rated pumps, Hydropool delivers optimal pressure to the jets while using the least amount of effort possible. High performance pumps combined with high flow plumbing techniques are at the heart of Hydropool's design. This results in lower operating costs, a quieter hot tub experience and a smoother running and more enjoyable system.

4 Medium spinning jets provide wide-body massage, while directional jets provide finger-point massage.

5 Full-sized directional pulsators, and multi-port massage jets provide an invigorating and penetrating massage.

6 Over-sized power spinners and massage jets provide a pulsating, deep tissue massage.

engineered to be the most energy-efficient hot tub built in the world

Double Thermal Shield Insulating System.

Our innovative Thermal Seal Blanket along with our superior 4 inch HydroWise Hard Cover keeps the heat in and the cold out. Combine this with our ability to utilize the excess heat created by the pumps allows you to enjoy the benefits of hot water and hydrotherapy for...

just a few cents per day.

Our HydroWise approved hot tubs are among the few in the industry that have passed the California Energy Commission's rigorous energy efficiency testing.

1 insulating air pocket

An air space between the hot tub shell and specially installed vapor barrier retains heat energy from the hot tub plumbing and hot tub water. This supports the hot tub plumbing and should you need access to the plumbing in the future, the air pocket makes this very easy.

2 first thermal shield

A Thermal Seal Blanket is wrapped around the vapor barrier. High density insulation is applied to the base of the hot tub and at the top and bottom of the Thermal Seal Blanket. This creates the first of two Thermal Shields.

3 second thermal shield

An air chamber is created between the first Thermal Shield and a second layer of Thermal Seal Blanket that is installed on the inside perimeter of the hot tub cabinet. This air chamber allows the excess heat created by the pump(s) to be utilized resulting in reduced operating costs and forms the second of two Thermal Shields.

EXCLUSIVE

4 adjustable thermal vents

The air chamber that is created by the two Thermal Shields may cause the hot tub to overheat. Adjustable Thermal Vents are installed to exhaust the heat in the warmer months and retain the heat in the colder months as required.

5 HydroWise Hard Cover and Polymer Base

The hot tub is capped off with our HydroWise 4" cover on the top and heavy duty Polymer Base on the bottom. This completely seals the hot tub to ensure maximum durability and efficiency.

4 programmable controls

Your HydroPool Hot Tub does not need to continually operate. Select your desired water temperature and the hot tub automatically maintains this temperature while ensuring that your hot tub is automatically conserving as much energy as possible. The efficiency of the Self-Cleaning System reduces the amount of time that the pumps need to run which further reduces the hot tubs operating costs.

experience the ease of
Hydropool's advanced technology

Quick Drain System.

EXCLUSIVE

Find more time to relax in your soothing bubbling hot tub that actually drains itself with the hot tub pump. With the convenience of the quick drain system and the science of the worry-free Hydropool Self-Cleaning technology, you'll wish everything in life could be this easy.

Unlike other hot tubs that gravity drain....

A Hydropool Self-Cleaning Hot Tub uses the hot tub pump to quickly drain the hot tub water. This saves time and allows you to pump the hot tub water to the location of your choice. Gravity drain systems are much slower and generally restrict drainage to gardens or other less

desirable locations. This innovative feature saves the time and hassle often associated with regular hot tub maintenance and even eliminates the need for a submersible pump and wet/dry vacuum to perform periodic hot tub drain and refills.

No shop vac
needed

No sump
pump needed

Speakers not exactly as shown

Hydropool's Self-Cleaning Hot Tubs have...

set the standard with their "more than" standard features.

1) world famous comfortable and spacious design

Each and every Hydropool Self-Cleaning Hot Tub mould is hand crafted by experienced designers and is carefully thought out to provide the ultimate in comfort, safety and versatility. Only the Hydropool Self-Cleaning Hot Tub includes the exclusive level ledge and spill lip for the ultimate in performance and convenience.

2) three stage acrylic and polymer shell

All Hydropool Self-Cleaning Hot Tub shells are vacuum formed from the finest acrylic available today. After the acrylic is vacuum formed, a layer of vinyl ester based glass loc fiberglass is applied to ensure perfect bonding of the finished shell structure to the acrylic. Several layers of polyester based glass loc fiberglass is applied to make one of the strongest shells in the industry.

6) electronic soft touch controls

State of the art electronic controls are at the heart of every Hydropool Self-Cleaning Hot Tub. They offer you piece of mind and the assurance of full control over your hot tub including a number of safeguards that are built-in to ensure worry-free enjoyment.

7) HydroWise insulating cover

Hydropool locks in heat and keeps unwanted persons out with one of the industries finest safety hardcovers. The safety hardcover measures four inches thick in the middle and tapers to three inches on each end. The marine grade vinyl cover is lockable to prevent it from opening in windy conditions while keeping small animals and children out. The taper to each end allows any snow and water to run away from the hot tub.

8) super soft pillows

Every Hydropool Self-Cleaning Hot Tub includes strategically placed super soft pillows. Sit back and fully relax while enjoying the unmatched comfort of a Hydropool Hot Tub.

3

4

5

3) powerful 240 volt pumping system*

Hydropool Self-Cleaning Hot Tubs use only a rugged 56 frame, fan cooled pump system that is hydraulically balanced to deliver perfect water pressure to each hot tub jet. Using this style of pump provides solid state starting reliability, double shaft seal protection and includes a heavy duty ball bearing system.

4) stainless steel versa massage hydrotherapy jetting

The ultimate in Hydropool's "Versa Massage System" is the ability to customize the intensity of the hydrotherapy to ensure optimal relief for your specific aches, pains or injuries. Hydropool Self-Cleaning Hot Tubs are designed with a variety of different massage jets to ensure that your stress is demolished and you receive maximum enjoyment from your hot tub.

5) stainless steel high performance heater

A stainless steel housing is installed in the equipment area of our Hydropool Self-Cleaning Hot Tubs. This corrosion free and long lasting heater housing contains a fully immersed 4 KW* heating element that warms the water up quickly after being freshly filled with water and efficiently maintains your favorite temperature.

9

9) premium 20 LED lighting

All Hydropool Self-Cleaning Hot Tubs include the added convenience and reliability of Hydropool's LED lighting, featuring 20 bright LED lights. On top of this, sequence through solid color choices of blue, green, red and white.

10

10) safety grab handles

Built right into the hot tub mould on every Hydropool Self-Cleaning Hot Tub is a number of safety grab handles. These maintenance free grab handles help you to safely move around the interior of the hot tub and help you to sit in and out of the different styles of seating.

11

11) automatic water purification (ozone)

When mixed with water, ozone is a highly effective oxidizer that assists in removing unwanted contaminants from the hot tub water. Hydropool Self-Cleaning Hot Tubs include a mazzei ozone injection system that keeps the ozone in the water and dramatically improves the performance of the system.

*Europe - 230V/3KW

Hydropool Self-Cleaning Hot Tub are

over equipped with twenty-two standard features

12

12) automatic chemical feeder

After the hot tub water is treated with ozone, the water is then treated with chlorine or bromine. This ensures that the bathers are fully protected and that the hot tub water is safe and bacteria free.

13

13) ice bucket

All Hydropool Self-Cleaning Hot Tubs include a built in ice bucket to keep your favourite drinks cool and convenient. Melted ice is automatically drained from the ice bucket by means of a jet in the hot tub eliminating any need to worry about water build up.

14

14) truss supported clear cedar cabinetry with removable panels

Hydropool Self-Cleaning Hot Tubs are exclusively available with our Cedar or Maintenance-Free Everlast Cabinetry. This high quality cabinetry is installed onto a truss supported solid frame for the ultimate in strength and durability. In the unlikely event that you require access to the hot tub plumbing or equipment all four panels are removable for easy service access. Choose from Clean Cedar, Natural, Driftwood or Espresso Everlast.

18

18) 10 year / 5 year / 5 year guarantee

Hydropool Hot Tubs are built to stand the test of time. Hydropool guarantees the hot tub shell for a full 10 years, the acrylic surface for 5 years and the operating equipment and plumbing for 5 years. Parts and labor according to the Hydropool guarantee payment schedule is included. Please note that hard covers and audio / visual equipment is guaranteed for one year. Refer to the warranty card for complete details.

19

19) premium waterfall jet with pillow

Hydropool Hot Tubs uniquely designed adjustable "Water Fall Jet" releases the body's natural endorphins that act as natural pain killers and help to relieve stress, headaches and pain. Simply turn the dedicated control valve that is located within arms reach of the seat and adjust the flow as desired.

20

EXCLUSIVE

20) "Double Thermal Shield" energy efficient insulation

Hydropool Self-Cleaning Hot Tubs are engineered to be the most energy efficient hot tub built in the world. Our innovative Thermal Seal Blanket along with our superior 4" HydroWise Hard Cover keeps the heat in and the cold out. Combine this with our ability to utilize the excess heat created by the pump(s) and you can enjoy the benefits of hot water and hydrotherapy for just a few cents per day! Hydropool Hot Tubs are now recognized by the California energy commission as an Energy Efficient Appliance.

15

16

17

15) self-supporting multilam cradle

Hydropool goes the distance and installs the industry's strongest hot tub support system available. Say "yes" to nearly every installation scenario and delete the furniture grade cedar cabinet. The hot tub is fully supported by the "Self-Supporting Multilam Cradle".

16) polymer base

The entire foot print of each and every Hydropool Hot Tub is sealed off with a weather resistant polymer base. The base is snugly fastened to the wood support structure and is designed to keep out unwanted animals and pests while keeping the heat in and protecting the hot tub from the elements.

17) high flow, triple fastened manifold plumbing

Hydropool Hot Tubs are hydraulically balanced to deliver maximum water flow at the jet while delivering a smooth, quiet and energy efficient experience. Plumbing joints are cemented onto barbed fittings and then further secured with a hydraulically installed galvanized steel clamp.

21

EXCLUSIVE

21) Self-Cleaning System

Thanks to Hydropool's innovative Self-Cleaning System, our premium line of hot tubs is considered the easiest hot tub in the world to maintain. The water is drawn simultaneously through the built in floor vacuum and high flow skimmer. It is then pre-filtered, ozonated, microfiltered, sanitized with chlorine or bromine and then returned to the hot tub. In fact, 100% of the water is cleansed every fifteen minutes negating the need for a dedicated circulation pump.

22

EXCLUSIVE

22) Quick Drain System

Like no other hot tub on the market, simply plug the high flow skimmer, attach a garden hose to the water bib near the equipment, turn on the tap and close the gate valve. The hot tub will now drain itself using the hot tub pump. Draining the hot tub does not get easier and there is no need for a submersible pump to drain the hot tub, or a Shop Vac to remove any water that is left behind by a traditional gravity drain system.

Midnight Mist

Silver Marble

Odyssey Blue

*Hot tubs colours may not be exactly as shown due to printing.

2

2) Hydropool surround sound with subwoofer & remote

Hydropool's Surround Sound includes a waterproof AM/FM/CD Player with an MP3 input and proprietary circuits that automatically prevent distortion at high volumes. With 180 watts total power, a custom EQ optimizes sound and automatically adjusts the various frequencies. The system comes complete with a floating waterproof remote control and an engineered subwoofer that rounds out the sound by delivering deep distortion free bass. The remote also controls hot tub functions including up to three pumps, bubbler and lighting options for the ultimate in convenience.

17" LCD Wide Screen TV With DVD Player (stereo required)

Models 800 and 1038 can be purchased with our video entertainment system which includes a waterproof 17" LCD screen that hydraulically lifts up and out of a specially designed housing in the hot tub shell. The system is cable and satellite ready and includes a waterproof floating remote control. The system also includes a marine grade DVD player.

3) Premium Everlast Cabinetry With Removable Panels

Hydropool Self-Cleaning Hot Tubs are available with our maintenance-free everlast cabinetry. This premium quality cabinetry is installed onto a sturdy wood substructure for the ultimate in durability and is embossed for the most realistic look possible. In the unlikely event that you require access to the hot tub plumbing or equipment, all four panels are removable for easy service access. Choose from Natural Cedar, Driftwood or Espresso finishes.

Espresso

3

Natural

Driftwood

4) cover options Double Thermal Shield cover

This patented ultra energy efficient 4" cover features a silver reflective lining, a bumper seal through the centre fold and around the outside perimeter to ensure that the heat stays in and the cold stays out. There is simply not a better cover.

4

EXCLUSIVE

covermate I cover remover

Our most popular cover removal system is easy to use, is space efficient and simple in design. It has only one moving part and a built in stop mechanism and is absolutely trouble free.

covermate III cover remover

Manufactured from powder coated aluminum this cover remover is especially space efficient. The covermate III can be partly lifted at one side and the hydraulic pistons assist with the final removal of the cover.

cover shelf

The cover shelf allows for the hot tub cover to slide horizontally out of the way. If space behind your hot tub is not a factor, this is the most affordable way to remove and store the cover.

customize your Hydropool Self-Cleaning Hot Tub
**with even more great options
and upgrades**

**5) hydrotherapy options
bubbler with aromatherapy**

The air bubbler injects millions of tiny air bubbles into the hot tub gently massaging every part of your body. You can load the aromatherapy injector with our special scented beads and create a stimulating sensory experience.

reflexology foot massage

You know how good a foot massage feels and stimulating the feet can relieve tension throughout the body. Hydropool's Reflexology Foot Massage lets you divert all of the water from one pump through two monsoon footwell jets to deliver powerful and vigorous massaging streams to your feet for maximum stress relieve and hydrotherapy enjoyment.

premium waterfall jet (one is included)

The adjustable "Waterfall Jet" helps release the body's natural endorphins that act as a natural pain killer and help to relieve stress, headaches and pain.

**6) lighting options
deluxe LED & garden FX**

The deluxe LED lighting upgrade adds 3 additional 20 LED lights (making a total of four) to the hot tub interior and helps you relax while enhancing your hot tub experience. The addition of the garden FX lighting creates a safe entry and exit point to the hot tub that automatically turns on and off by means of a photo cell.

**galaxy LED &
waterfall lighting**

The galaxy lighting upgrade adds up to 25 strategically placed (dependant upon hot tub size) LED point lights around the top perimeter of the hot tub shell. These brilliant color sequencing lights are complemented by LED lights that illuminate the water fall jet(s) discreetly from behind.

7

double cedar step

single cedar step

two tier step natural everlast

two tier step driftwood everlast

two tier step cappuccino everlast

7) step options matching one or two tier step

Hydropool's one or two tier step makes entering and exiting your hot tub safe and easy. Available in clear furniture grade cedar and maintenance free everlast. The matching two tier step complements the exterior cabinetry and completes most hot tub installations.

8) other popular options & upgrades

floating remote control
You can remotely control hot tub functions such as pumps and lighting as well as any of the exciting audio visual & sound options.

8

Salt Water Bromine Generator
Provides unsurpassed ease and convenience in hot tub water sanitation. The system results in automatic crystal clean water and reduces the amount of work required to maintain your hot tub making the world's easiest hot tub to maintain just that much easier.

Two Piece Sectional Split Shell

When the final installation location has limited access, Self-Cleaning 575 is available in a two piece split shell. Move the two pieces into place and easily bolt the two pieces together while making it permanently watertight with the supplied sealing instructions and product. The built in floor vacuum is eliminated when ordering a split shell hot tub.

40, 50 or 60 amp GFCI with sub-panel box

For your convenience a GFCI breaker can be conveniently installed into the included custom sub panel.

hot tub monitor

The hot tub monitor is designed as a wireless hot tub control which shows water temperature and diagnostic messages and lets you adjust the water temperature, turn on/off the jets, lights from inside your home.

hand held jet

Get to those hard to reach places and deliver an invigorating deep tissue massage.

Safe T Rail

The Safe T Rail makes it easy to get in and out of the hot tub and adds an additional level of safety for everyone.

towel bar

The unique upright position allows towels and robes to remain close while keeping them clean and dry.

surround yourself with...

enhance your hot tub with...

Hydropool's salt water bromine system

Hydropool's Salt Water Bromine System

Provides unsurpassed ease and convenience in hot tub water sanitation. The system results in automatic crystal clean water allowing your filter and water balancing products to do their job without adding chlorine or bromine. The Salt Water Bromine System reduces the amount of work required to maintain your hot tub making the world's easiest hot tub to maintain just that much easier.

- added convenience
- enhanced water quality
- extended water life

why choose Hydropool.

- 1) **self-cleaning** The technologically advanced self-cleaning system, simultaneously removes surface debris and cleans the bottom of the hot tub with its built-in floor vacuum.
- 2) **quickdrain** Find more time to relax in your soothing, bubbling hot tub that actually drains its self with the hot tub pump. With the convenience of the quick drain system and the science of the worry-free Hydropool Self-Cleaning technology, you'll wish everything in life could be this easy.
- 3) **double thermal shield energy efficiency** Our innovative Thermal Seal Blanket along with our superior 4 inch HydroWise Hard Cover keeps the heat in and the cold out. Combine this with our ability to utilize the excess heat created by the pumps allows you to enjoy the benefits of hot water and hydrotherapy for just a few cents per day.
- 4) **versa massage** Hydropool's unique stainless steel "Versa Massage" combines the benefits of all the best jet sizes, types and designs available, ensuring you receive the customized massage just right for you.
- 5) **comfort** The combination of deep recumbent seats, anti-float loungers, shallow cool down and child seats with the industry's softest head cushions, results in the most comfortable hot tub experience.
- 6) **design** Above and beyond being the best looking hot tubs in the world, each model is engineered to comfortably accommodate more users than similarly size other brands.
- 7) **state of the art electronics** Allows you to safely and easily control all aspects of your hot tub experience while in your tub and preprogram heat and filter cycles to optimize non-peak electrical hours.
- 8) **customization** Allows you the flexibility of locating the equipment in a remote location or deleting the cabinet for in-deck installations.
- 9) **warranty** Our warranty can not be beat. From top to bottom, we stand behind our quality with a 'straightforward', no nonsense full parts and labor warranty that will ensure expense free hot tubbing for years. See Retailer for details.
- 10) **a company you can trust** Standing behind your Hydropool Hot Tub is a company that has been manufacturing hot tubs since 1980 and is part of a 36 year old organization dedicated to excellence in customer service.

A wooden pergola structure is built over a hot tub. The hot tub is white with a wooden base and is surrounded by a wooden deck. To the left of the hot tub, there is a small table with two chairs. In the foreground, there are two potted plants with yellow flowers. The pergola has a lattice back and is supported by wooden posts. The background shows a house with a brown roof and a large evergreen tree.
