Futuristic Design

Bio-Design

A generation ahead of mundane square shapes, All is a Bio-Design. Its Aesthetically pleasing shapes incorporate continuous curves to Convey warmth and harmony The Mounting screw can be hidden With a screw cap.

Revolutionary Technology

The terminals are constructed as single pieces without joints or rivets thanks to revolutionary sheet metal technology. This accommodates more wires than conventional brass turned terminals.

Smart

The rocker design has been Ergonomically sized and shaped Only after receiving inputs from prestigious consultants and hundreds of actual users.

Paint Guard

Paint Guard This plastic guard protects the Accessories while painting the wall.

Cool

A silver overlay, placed over The entire surface of the moving Contact, keeps the switch cool Even when it is loaded with fluorescent lamps at maximum current.

Superior Quality

alf products are made of high gloss polycarbonate material that is tough, impact-resistant flame-retardant and built to last.

Universal

alf sockets are designed to accept Various standard International plugs.

Easy Installation

Angular design of the housing Keeps the brass terminal screws at an angle. This allows easy accessibility by a screw driver even on a 4 gang switch.

Room for Error

Any misalignment of the switch Box on the wall can be corrected because of an elongated fixing hole on the cover plate.

Durable

alf products are type tested to relevant IEC and BS standards to offer a minimum lifespan of 25 years.
