# BAGNODESIGN

LONDON

The BAGNODESIGN Collection represents style, beauty and cutting-edge functionality. The extensive product range varies from contemporary to traditional and everything in between, covering all product categories relating to the bathroom. To complement each other, BAGNODESIGN has created product families with matching sanitaryware, mixers, baths, showers, accessories and furniture – offering new ideas for bathroom inspiration.

With offices worldwide, this boutique bathroom brand works closely with designers, developers and installers to deliver quality end solutions. The company has over 2,500 products in its impressive and diverse portfolio. Production is primarily focussed around the UK and Italy, where design authenticity is a must.

Ensuring that all products designed and manufactured meet the latest European quality standards, customers can be confident that when they purchase a product from BAGNODESIGN, they are getting a superior, value for money item which will stand the test of time. BAGNODESIGN supplies residential, hospitality and commercial contracts, as well as having a contemporary luxury retail offering.

BAGNODESIGN showcases its boutique brand through a variety of designer showrooms located around the world, serving as inspirational hubs for unique and creative bathrooms. The complete BAGNODESIGN range can be viewed at our flagship showroom in Dubai as well as at our A&D Centres in London and Hong Kong, and in other major cities across Europe, the Middle East and Central Asia.

basins

**FINISHES:**

The various marbles used have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

**Note:** Basins on this page do not have tap holes or overflows.

LONDON

BAGNOQUARTZ composite stone is manufactured from a specialised compound of natural minerals, pure polyester polymers and quartz crystal aggregate. The result is a solid surface product with a warm, velvety touch – the ideal material for creating smooth, organic basins and bath tubs.

With all the benefits of natural stone, the BAGNOQUARTZ range is exquisitely crafted, well-proportioned and can lend any bathroom interior an air of opulence and gravitas. It is chip, stain and scratch resistant, and its non-porous properties results in an extremely hygienic product.

From classical times, stone has always spelt pure luxury and the BAGNOQUARTZ composite stone and glass particle blend is no different. The collection's basins and bath tubs are ultra-durable, look clean and fresh, and ooze splendour in the bathroom.

## BAGNOQUARTZ

blended stone . unparalleled luxury

wc flushing solutions

**FINISHES:**

**Note:** Concealed Cisterns on Page 83-84

## AQUAECO flushing solutions

AQUAECO flushing solutions have a proven track record in today's market, enabling safe and simple installation. They create stability and space for the sanitary technology and all necessary connections. They also offer you the option to adapt the room layout or WC seat height to your own requirements.

At the core of the AQUAECO flushing solution is the concealed cistern. It is located behind the wall and has a robust leak proof design allowing it to function perfectly time after time. Even the smallest detail has been given careful consideration. For example, the water tank is manufactured as one single piece and every tank is thoroughly checked for leaks before it leaves the factory.

If servicing is required, the filling and flush valve systems can be readily dismantled and reinstalled through the service opening behind the flush plate, and all without the use of tools. AQUAECO guarantees 10-year replacement availability for all function-maintaining parts for concealed cisterns.

Concealed cisterns are factory-installed with a robust installation frame made of high-quality steel. The frame is designed for loads of up to 400 kg and securely supports wall-hung WC's. It also allows for individual height adjustment so that the WC can be mounted precisely at the height you find most comfortable.

Most of the wall-hung WC's available on the market can be fastened to our AQUAECO installation frames without the need for any adjustments.

# BAGNOQUARTZ

blended stone . unparalleled luxury

**BAGNOQUARTZ** composite stone is manufactured from a specialised compound of natural minerals, pure polyester polymers and quartz crystal aggregate. The result is a solid surface product with a warm, velvety touch – the ideal material for creating smooth, organic basins and bath tubs.

With all the benefits of natural stone, the **BAGNOQUARTZ** range is exquisitely crafted, well-proportioned and can lend any bathroom interior an air of opulence and gravitas. It is chip, stain and scratch resistant, and its non-porous properties results in an extremely hygienic product.

From classical times, stone has always spelt pure luxury and the **BAGNOQUARTZ** composite stone and glass particle blend is no different. The collection's basins and bath tubs are ultra-durable, look clean and fresh, and ooze splendour in the bathroom.

# BAGNOTEC

pure stone . pure design

bathing

This range of composite baths and basins from **BAGNODESIGN** comprise of a blend of stone, marble and polymer resin solutions, which is then moulded to a specific design. Each piece within the **BAGNOTEC** collection is individually hand finished, crafted to perfection with the constant and meticulous involvement of our dedicated design team.

The solid surface products have an exclusive fine lustre that surpasses ceramic or acrylic/ABS made products and apart from the natural beauty of the stone, its hard quality makes it durable, easily maintained and very resilient. The select mix of materials, which make up the **BAGNOTEC** collection, lends itself to a wide and vivid range of shapes and designs.

Thank you for considering **BAGNOTEC** products
