## DECORATIVE WALL MOUNTED LED LUMINAIRES

THE LEDDUO COMBINES ENERGY EFFICIENCY WITH A SLEEK AND STURDY DESIGN.

Designed for exterior and interior lighting, the LEDduo range offers two models - one square and one round - for a flawless integration into the architecture. It is characterised by a refined design, a robust construction and an efficient LED engine. Available with neutral or warm white LEDs, the LEDduo offers various light distributions - from narrow to wide beam angles - to the place to be lit. These luminaires light up and down to create a pleasant and safe atmosphere.

Suitable for architectural (façade and accent) and ambiance lighting (parks and gardens), the LEDduo provides a versatile solution.

These tiny luminaires offer excellent vandal resistance thanks to robust materials (aluminium and glass). With a high tightness level (IP 66) and a light source with a long lifespan, they guarantee a long lasting performance.

## CHARACTERISTICS

Lumen package range	1,280 to 1,420lm
Colour temperature	Warm (3,000K) or neutral white (4,100K)
Tightness level	IP 66
Nominal voltage	230V - 50Hz
Electrical class	I <sup>(*)</sup>
Weight	1.8kg
<b>MATERIALS</b>	
Body	Die-cast aluminium
Protector	Glass
Colour	RAL pearl light grey 9022

<sup>(\*)</sup> according to IEC - EN 60598

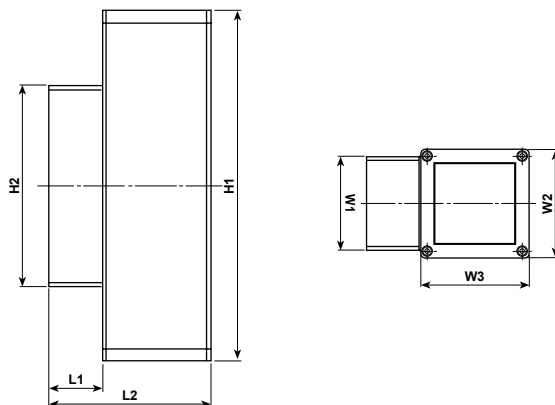

## KEY ADVANTAGES

- Low power consumption
- Two models and three light distributions: narrow (24°), medium (32°) and wide (50°) beams
- Suitable for architectural and ambiance lighting
- Weather proof (IP 66) and vandal resistant
- Control gear mounted on a removable gear tray
- Corrosion-resistant materials
- Easy to install

## DIMENSIONS

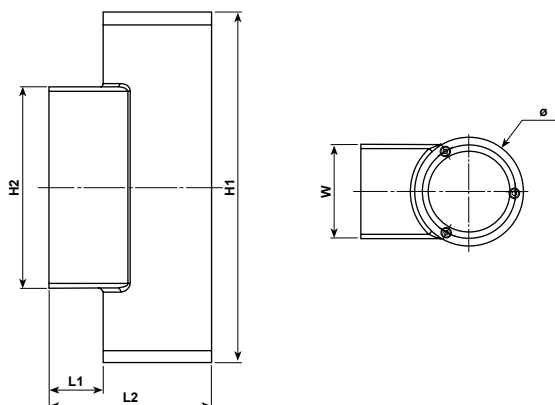

### LEDDuo/SQUARE

H1	262mm
H2	150mm
L1	40mm
L2	121mm
W1	70mm
W2	81mm
W3	81mm

### LEDDuo/ROUND

H1	262mm
H2	150mm
L1	40mm
L2	121mm
W	70mm
∅	81mm
