

Easy project collaboration

Share, annotate and collaborate on building projects in a common data environment.

Manage your documents globally

Collaborate on BIM models

Create unlimited users and roles

Automate repetitive tasks

Manage your documents securely

Bricsys 24/7 offers safe and easy document management. Access your documents from anywhere. Share them with your teams across the globe. View them on any device

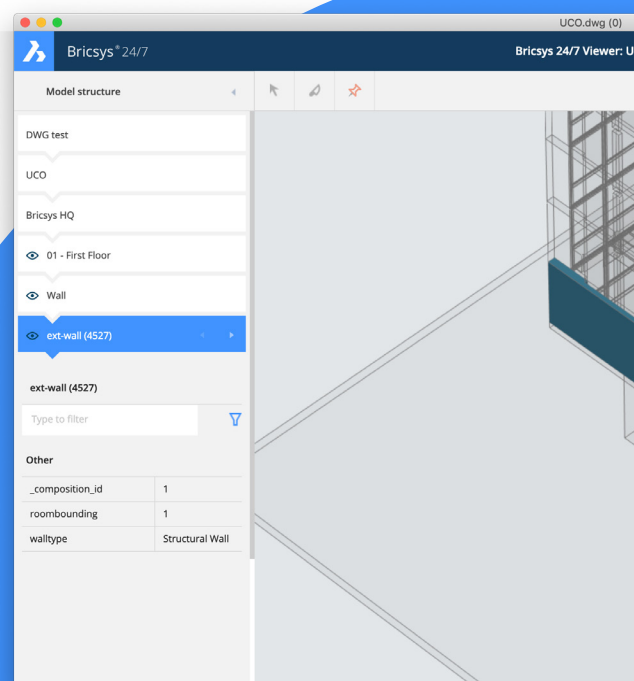

-  Control document revisions
-  Attach metadata to documents
-  Detailed, secure activity logging
-  View over 70 file formats

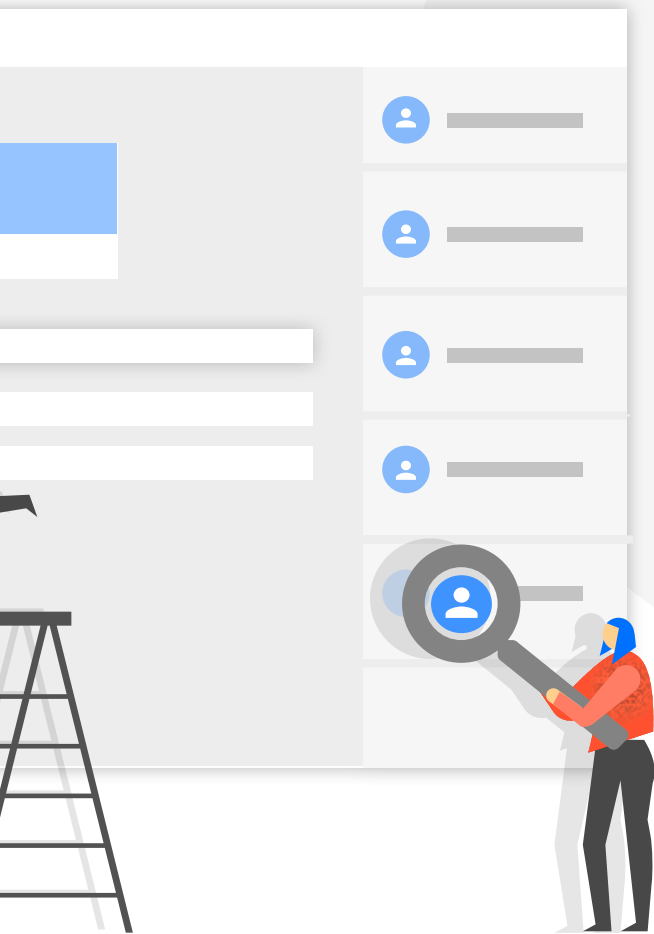

BIM Model Manager

Share your BIM models with architects, engineers, construction professionals and building owner/operators. Explore, view, annotate and section 3D building models interactively, in a browser.

-  View and explore your BIM
-  Centralize, store and manage your BIM
-  Annotate 3D models
-  Full xref management

Role-based access control

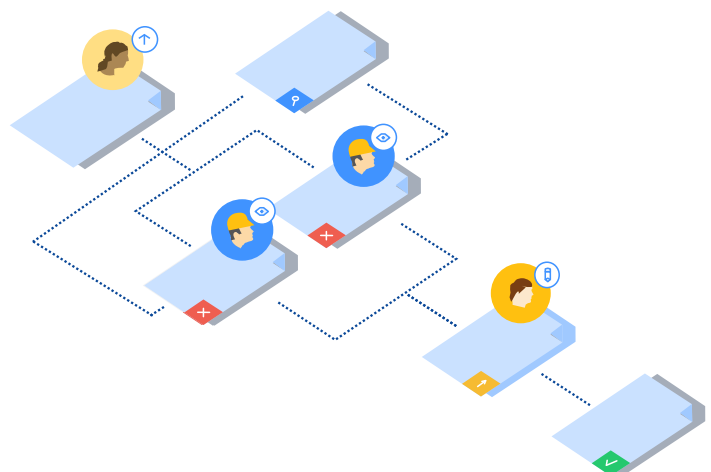

Project administrators can set user rights by creating roles to simplify permissions management. Administration is as easy as 1, 2, 3.

-  Invite unlimited users
-  Powerful administration tools

Automate repetitive tasks

Streamline your document management workflows by automating repetitive tasks. A graphical workflow editor makes automating your document routing and approval processes simple.

-  Graphical workflow editor
-  Assign and keep track of tasks

Bricsys 24/7 is trusted by forward-thinking companies of all shapes and sizes

Port House - BAM Belgium

Bricsys 24/7 is the chosen Common Data Environment for all AEC projects managed by BAM Belgium. BAM use the workflow functionality in Bricsys 24/7 to ensure efficient, secure and traceable project communications across all project disciplines.

Brussels Airport - BAC

The Brussels Airport Company selected Bricsys 24/7 as their document exchange platform for airport infrastructure and construction projects. They use Bricsys 24/7 to manage document approval flows, for cross-vendor collaboration, and as a comprehensive drawing catalogue.

Unlimited projects. Unlimited users.

One flat fee for the Bricsys 24/7 service, including upgrades and support. Simple, straightforward pricing.
