It goes without saying that you have the opportunity of designing your own "dream door" by selecting further optional extras. Whether it's a special door handle, an electric door opener or additional security, Hörmann Comfort front doors will meet your every requirement.

Door handles

Security packs

As an alternative to the standard three-point lock, the Comfort front doors are also available with an automatic lock (self-locking) and an automatic multiple-point lock (self-locking).

Other optional extras

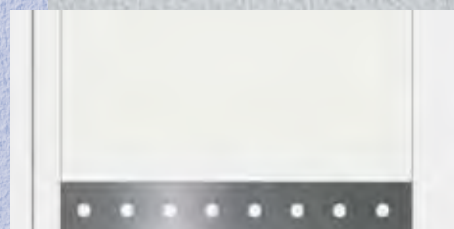

- Stainless steel interior lever handle with cylinder rose
- Electric door opener
- Overhead door closer with hold-open function
- Rounded fascia frame outside
- Stainless steel bottom section for door and side element

*Stainless steel

State-of-the art Engineering and Quality in Every Detail.

- Sturdy triple chamber profiles (overall thickness 80 mm) for heavy duty
- High thermal insulation meets the requirements of the energy-saving regulation EnEV
- Double door seal ensures excellent sealing properties and good acoustic insulation
- A special surface finish prevents the UPVC infills from turning yellow

Sturdy maintenance-free hinges

Increased security thanks to two-piece, three-dimensionally adjustable hinges with plastic bushes and stainless steel pivot.

Elegant white cylinder rose

Three-point-security lock

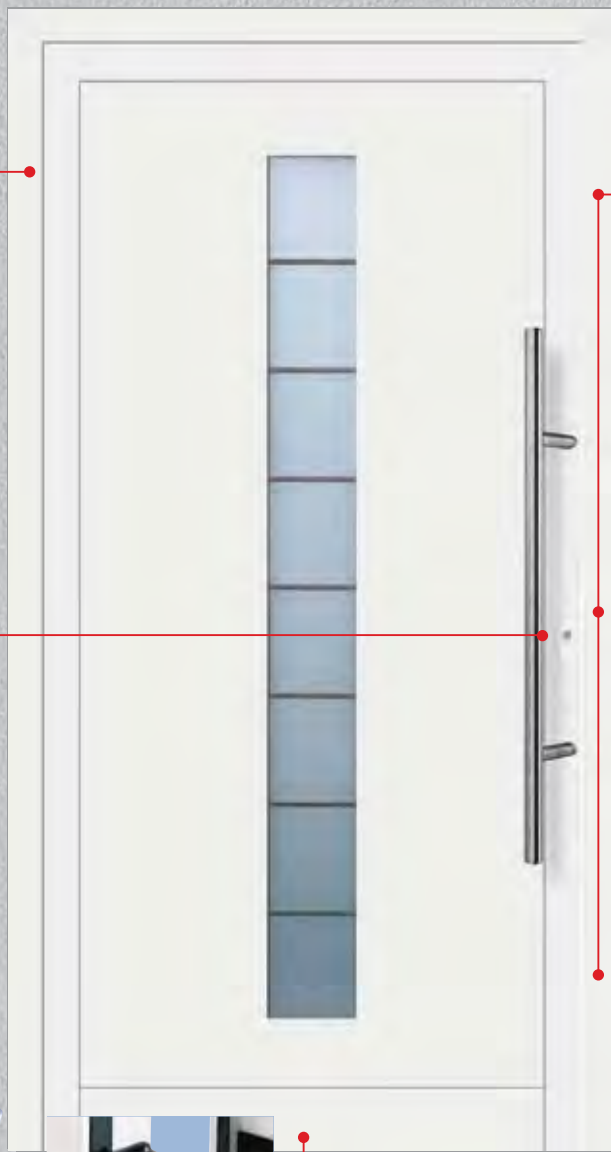

The security lock not only secures the door via a latch and bolt but additionally via two steel hook-swivel bolts (top and bottom) making sure that the Comfort front door is secured at 3 different points with just one turn of the key.
