MADE FOR LIFE

coolaroo.com

Nothing lasts like a Coolaroo

Almost fifty years ago, one Australian company recognised the opportunity to challenge harsh weather extremes and identified a remarkable solution to modify them.

That company was Gale Pacific. Through advanced engineering, Gale Pacific pioneered the unique marriage of monofilament and polymer tape technologies to create an entirely new type of knitted fabric.

This know-how lies at the very heart of virtually every Coolaroo product, providing people, plants and places with the ultimate protection from the relentless sun and other weather extremes.

Today Coolaroo sun protection products are widely regarded as the benchmark in quality outdoor leisure products offering superior sun protection.

The Coolaroo Exterior fabrics and outdoor leisure products include gazebos, umbrellas, architectural shade sails, exterior window shades, pet beds and more.

Coolaroo also provides an outstanding range of garden products such as Weedmat, Birdnet, Synthetic Grass, Greenhouses and Garden Screening to protect your house and garden from the harsh Australian climate and pests.

• Window Shades • Umbrellas • Shade Sails • Gazebos • Exterior Fabrics • Garden Products

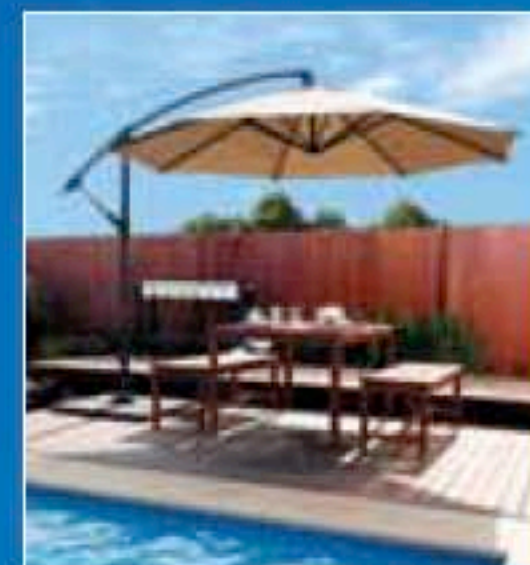

All Coolaroo products come with an extensive warranty and many of these quality features.

Coolaroo Exterior Fabric is engineered to stand the test of time. This unique all-weather fabric is designed to breathe, creating a cooler (up to 32% independently tested by CSIRO), more comfortable environment beneath. It's so strong and durable it won't tear or fray, rot or mildew, and it meets the stringent Australian Standard for Exterior Fabrics so the UV block factor of the material is guaranteed.

Coolaroo Medium and Extra Heavy Exterior Fabrics are specially treated to eliminate shrinkage so you can install them with complete confidence.

Available in 2 widths: 1.83 m (6') and 3.66 m (12').

4 Extreme Extra Heavy & Medium also available in convenient Pre Packs.

FSC Certified Environmentally Friendly Timber

Coolaroo has long been a leader in knitting technology and outdoor shade protection products. It's also an environmental leader. In September 2003, Gale Pacific obtained Forest Stewardship Council (FSC) certification for all timber used to make Coolaroo Umbrellas.

The FSC is an international, non-profit organisation whose membership includes environmental and social groups, and progressive forestry and wood retail companies working in partnership to improve forest management all over the world. This means that all timber used by Coolaroo comes from forests that have been independently inspected and evaluated according to strict environmental, social and economic principles.

So when you buy timber umbrellas from Coolaroo you'll see the FSC logo as well as the Coolaroo logo. That means you're not only getting a product that's good for your environment, but one that's good for the environment in general.

Gazebo & Umbrella Accessories

Waterproof Gazebo Covers

Made from high-quality polyethylene and specially designed with stitched-in side edging and legs. Install in seconds, on its own or over the top of your Coolaroo cover. Available on selected models.

Gazebo Side Panels

Available in white Coolaroo fabric, side panels make an ideal privacy screen. Attaches quickly and easily. Available on selected models.

Waterproof Umbrella Covers

Made from high-quality PVC material, it's the perfect accessory to protect your Coolaroo Umbrellas from moisture and rain. Strong and durable it comes with a zip and tie close system for added protection.

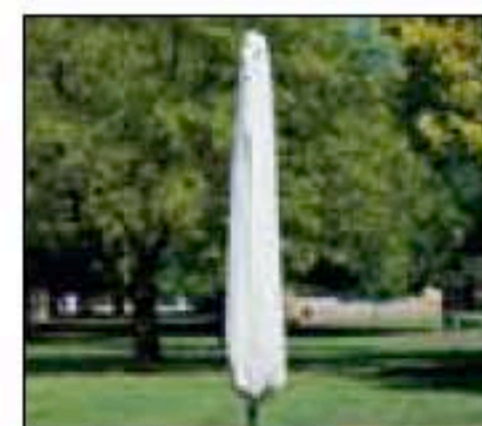

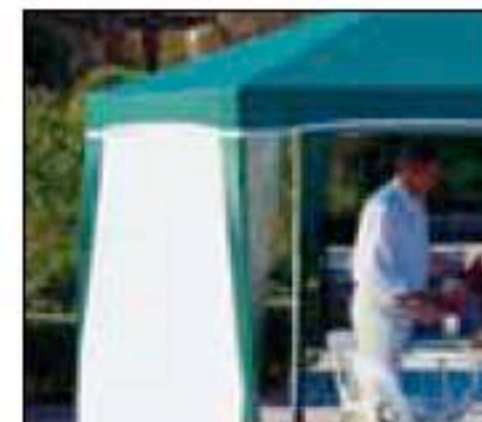

Umbrella Cross & Water Filled Bases

Cross Base:

Black powder-coated steel. Includes locking screw and folds up for easy storage. Suits 53 mm diameter poles. Requires pavers.

Water Base:

Adjustable to suit 18-32 mm diameter poles. Fills to become 20 kg weighted base, made from high-quality white PVC.

Coolaroo Pet Beds

Flea and mite resistant

Breathes to keep you cooler

Simply hose clean

5 year fabric warranty against UV degradation

Only Coolaroo Pet Beds feature unique Coolaroo knitted fabric that 'breathes' to keep pets cool.

Since Coolaroo fabric breathes, air flows through keeping odours to a minimum and your pet more comfortable in any weather. The unique Coolaroo fabric is unaffected by moisture, natural temperature extremes and its knitted construction means it resists tearing and fraying so you can safely use your Coolaroo Pet Bed indoors or outside.

- Extra strong powdercoated steel frame
- Strong, durable knitted fabric cover suitable for indoor or outdoor use
- Fabric breathes which promotes healthier skin and coat condition
- UV-treated fabric resists fading
- Simply hose clean
- Resists mould and mildew
- Flea and mite resistant
- Easy to assemble with spare covers available
