

Reinforced Shrink Film

Griff-Shrink is the world's only reinforced shrink film. This unique product offers special protection in the handling, shipping or storage of expensive equipment, machinery or sensitive parts. High strength, light weight and extremely durable, Griff-Shrink provides premium protection without requiring significant excess packaging costs.

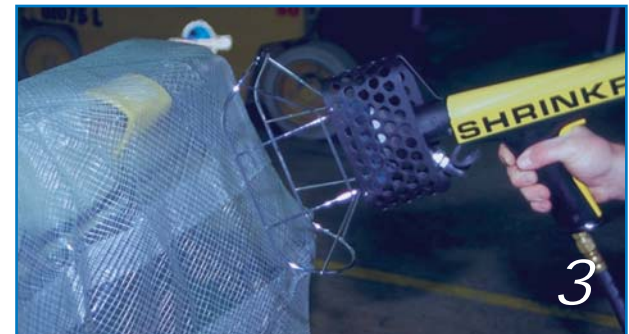

1
Place the product on a skid or pallet. Pad all sharp corners. Then drape the pre-formed Griff-Shrink bag over the product.

2
Roll up the excess material with a 1x4 or 2x4 and nail it securely to the pallet.

3
Shrink the material with a heat gun until it is stretched tightly around the entire product.

Your Benefits

- You pay to ship your products, not excess packaging.
- Griff-Shrink conforms to virtually any shape or size product.
- Quick and easy installation reduces your cost.
- Griff-Shrink reduces the need for heavy trucking tarps.
- UV stabilization allows for outside storage of pre-packaged units.
- Printing of your company logo or message is available for brand name identification.
- Clarity allows for easy inspection.
- Reinforced fire retardant grades allow for compliance with safety codes.
- Anti Corrosive additive to protect sensitive parts.
- Available in black/white reverseable, or clear.
