

Product description

Lady Effects Metallic is a high quality 100% pure acrylic, water borne product, used as a topcoat on emulsion based paints or texture paints.

The product is highly suitable for interior surfaces for creating special effects. A surface coated with Lady Effects Metallic shimmers in response to the light source, position and intensity.

Lady Effects Metallic creates an illusion of colour movement.

Recommended use

Ideal for design oriented interiors.

Technical information

Theoretical spreading rate: 6 - 8 sq.m./ltr/coat.

Colours: Starlight, Moondust & Golden Glow.

Solids (vol%): 36±2 according to the ISO 3233:1998 (E).
Glossy.

Preparation and application

The surface must be dry, clean and free from dust.

The temperature of the substrate should be min. 10°C and min. 3°C above the dew point of the air, temperature and humidity measured in the vicinity of the substrate. Good ventilation is required in confined areas to ensure proper drying.

Recommended tools: Spray, Brush or Roller. Please note orientation of Metallic flakes is important so it is preferable to avoid touch-ups and paint an entire area in a single application to have a uniform finish.

Lady Effects Metallic could be diluted with water or Metallic thinner.

Typical Paint System

Fenomastic emulsion primer/PVA primer	1 coat
Stucco	2 coats
Fenomastic Emulsion Matt (40% dilution)	2 coats
Lady Effects Metallic	2 coats

Other systems may be specified, depending on area of use.

Other effects could be done with Lady Effects Metallic, please check Jotun Techniques brochure.

Asrab

Bareeq
