

SONDEX

It Pays to Go Green with Energy Saving Services.

Our Services

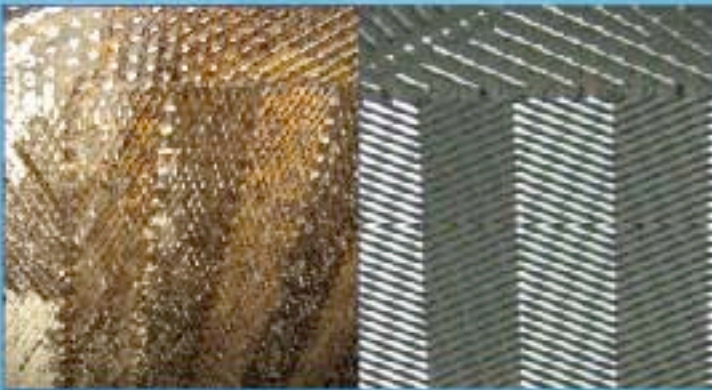

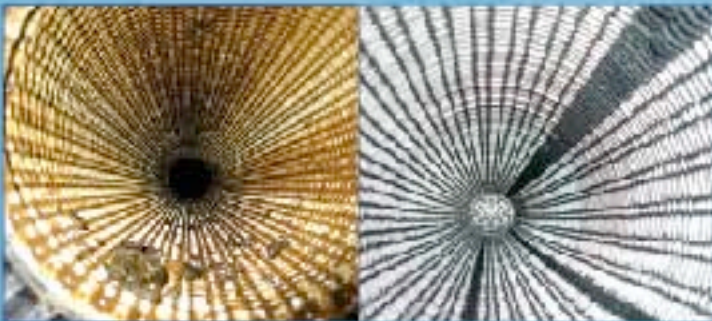

Did you know, not only are we solution providers in the field of heat transfer technology since 1984, but we also provide efficient and effective energy saving services.

We specialize in keeping your plate heat exchangers working to its absolute optimum, saving valued energy. With gas and energy cost rising, don't let a dirty, blocked or damaged heat exchanger drive your operating cost through the roof.

We are certified as per EN ISO9001-2008 and we are approved to fabricate and certify units as per ASME "U" stamp.

Our team consists of specialists dedicated to designing, optimization, cleaning fouled plates, regular maintenance, field and frame services. Along with installing cost effective spare parts and adhoc troubleshooting.

Call us now to experience the best services with energy conservation practices.

“ We specialize in developing customized service programs and annual maintenance contracts ”

Service Solutions

We are always on call to help you protect your investments in critical plate heat exchangers and fresh water distillers. We offer professional response to your request from expert field service personnel. We develop annual maintenance contracts and service programs to fit your needs.

Upgrading and Expansion Solutions

When we initially implement your Sondex Plate Heat Exchangers (PHE) and Fresh Water Distiller (FWD) solutions, we will always design for expansion according to your needs. When the time comes we are ready to re-specify your system and add the necessary plates.

Plate Re-Gasketing

Our high quality re-gasketing services are not limited to Sondex products only; we can take care of all of the PHE on your site, irrespective of the original manufacturer.

Field Services

Our field service personnel are on call for troubleshooting any plate heat exchanger issue and to offer long term solutions to your problems.

Frame Services

For total refurbishment of your PHE, the frame assembly can be sandblasted and painted and an insulation jacket replaced as required.

Call us for a no obligation performance check and feel the difference.
