

**MINING AND CONTRACTOR EQUIPMENT**

# Clean hydraulic oil

Filters and cleans oil for better quality than new oil free of particles and water. This prolongs oil life 10 to 15 times. For installation on machine.

Filter WP-15B

Controller TF5060C

### Filters

- WP-15B Up to 500 litres system
- WP-25B Up to 1000 litres system
- WP-50B Up to 1500 litres system
- WP-80 For extreme particle pollution

### Purifiner maintain service level of oil

- Cleaner removes particles down to 1 microns
- Evaporates all the water, including emulsified water in oil down to 0.01%
- Extends the oil's quality time
- Clean oil reduces casualty rate
- Saves the environment

After

### Purifiner Controller Specifications

Power Supply:	24 V
Nominal Wattage:	360W / 15A
Flow Rate:	600/24H – 25L/H
Filter:	1-3 micron (optional)
Water Removal:	Evaporation
Weight:	11 kg
Dimensions:	380 mm (h) x 355 mm (w) x 140 mm (d)
Pipework:	INLET=10L OUTPUT =12S
