Keeping element of creation as our start, shades and surfaces are involved in the development of daring and qualitative business activities in which we supply Play Area Equipments, Movable Cover Shades and Rubber floorings.

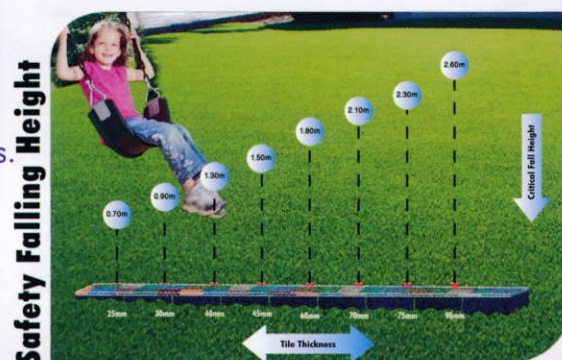

SNS is the proud authorized agents of Mister Shade Group which has established its prominent success in tensile fabric structures as well as Porta cabins and Intends, an Italian company for movable shade covers which is newly introduced in Middle East.

## Rubber Flooring! Go for Green!! :

Rubber from used tyres goes into making these elegant rubber square tiles and paving blocks. There are number of advantages using these, besides being attractive like they are non – slippery absolutely maintenance free, resistance to wear and tear and extreme climatic conditions prevailing in Middle East

## Advantages of Rubber Flooring

1. Strong, tough, and resilient against a variety of conditions.
2. Low Maintenance.
3. Water, dent and stain resistant.
4. Impervious to ice, water an extreme temperatures.
5. Fire and Burn Resistant - resistant to burns left from cigarette butts and other small fires.
6. Color Choices - replicate marbling and random speck patterns found in natural stone materials, or can take on extremely bright, vibrant, neon tones to create a loud and brash flooring design.
7. Textures – It can be raised dimples, studs, and other complex textures that can actually become part of the piece's design. This can also help to add traction to the floor, making it more slip resistant in wet areas.
