IDROFIS

series 470

0006 transparent

PRIMER

Water-based acrylic wall fixative

Based on styrene-acrylic copolymer in water emulsion, suitable for impregnating the wall surface, in indoor and outdoor use. Good penetrating and consolidating power.

Indicative spreading rate: **50-60m² /l per coat**

Number of coats: **1**

Tools: **brush, roller and spray gun**

Dilution: **6 or 8 parts or water per one of fixative**

Pack. : 15 l, 5 l, 1 l

WALL STUCCO

series 910

0019 white

THIN STUCCO

Stucco paste for interior thin levelling

It is a vinyl copolymer based aqueous emulsion that is ideal for the direct levelling of interior surfaces, new or old, such as plaster coat, concrete and wood. Ready-to-use and simple to apply. The product is applied in thin overlying layers. With its creamy consistency, easy and flowing application, WALL STUCCO allows you to obtain large homogeneous surfaces with low consumption of the product. Also indicated for levelling moderate cracks and depressions.

Indicative spreading rate: **4-6 m²/kg per coat**

Tools: **putty knife or trowel**

Dilution: **ready to be used**

Number of coats: **1 - 2**

Pack. : 20 kg

TAMSTUCCO PASTA

series 940

0006 white paste

THICK STUCCO

Wood and wall putty in paste

Based on vinyl polymer in water emulsion, to be used indoors for smoothing coats and to level out imperfections, cracks and gaps on both wood, wall and plasterboard surfaces.

Indicative spreading rate: **with an applied thickness of 500-600 microns a spreading rate of 1m²/kg is obtained**

Tools: **skreper or trowel**

Dilution: **ready to be used**

Pack. : 20 kg, 5 kg, 1 kg, 0.50 kg

BRAVOCASA

series 408

0019 white

HIGH QUALITY ACRYLIC PAINT

Highly washable water-based paint for outdoor and indoor use

Based on vinyl-versatic binder in water emulsion, for all-purpose outdoor and indoor use. High coverage and strong capacity to mask Imperfections in the support surface. Easy to apply, anti-drip and good spreading.

Indicative spreading rate: **9-12m² /l per coat**
Number of coats: **2**

Tools: **brush, roller, spray and airless gun**
Dilution: **with water**
by brush base coat at 35-40%
second coat at 30-35%
by roller at 25%

Pack. : 14 l, 4 l, 0.75 l

LAGUNA

series 370

0019 white

ACRYLIC PAINT

Breathable water repellent acrylic water-based paint for indoor and outdoor use

Based on polymeric binder in aqueous dispersion, suitable for indoor surfaces, including those subject to moisture such as bathrooms and kitchens. Resistant to alkalis and good resistance to abrasion. High coverage and breathability. Excellent whiteness. Easy to apply, even, matt appearance.

Indicative spreading rate: **8-10m² /l per coat**
Number of coats: **2**

Tools: **brush, roller, spray and airless gun**
Dilution: **with water**
base coat at 40-45%; second coat at 30%

Pack: 15 l, 4 l, 0.75 l

COMBAT 999 EW

series 489

Resistant to mould according to UNI 9805:1991 norm

MOULD RESISTANT EMULSION

Breathable hygienic water-based paint mould inhibiting for interior use - high whiteness

A vinyl versatate binder based paint highly suited for interior rooms exposed to a high level of air-borne moisture and inclined to the formation of moulds. It is used to create exceptionally white, flat and uniform finishes. Thanks to its hygienic strength, this product maintains the original appearance of the surfaces for a long period of time and improves the level of comfort in the room. It also provides excellent coverage, high breathability as well as good drip resistance, brushability and flow.

Note:

We suggest COMBAT 999 as anti mould super washable acrylic emulsion paint, it has very white hiding power for walls and ceiling surfaces.

Indicative spreading rate: **9-12m² /l per coat**
Number of coats: **2**

Tools: **brush, roller, spray gun and airless**
Dilution: **with water**
first coat at 50%
subsequent coats at 30-40%

Pack. : 14 l, 5 l

ALBUS

series 484

0019 white

ANTI DRIP PAINT FOR CEILING

Breathable, anti-drip water-based interior paint

Based on high coverage vinyl resin in aqueous dispersion. Used to create exceptionally white, flat and uniform finishes. Easy to apply with good drip resistance.

Note:

Very white hiding power we suggest ALBUS, for ceiling this is a very good solution.

Indicative spreading rate: **9-12 m² /l per coat**
Number of coats: **2**

Tools: **brush, roller, spray and airless gun**
Dilution: **with water**
base coat at 50% with water
second coat at 30-40%

Pack. : 14 l, 5 l
