## STANLEY

Whether you're a retailer looking for the best quality products to offer your customers, or a skilled end-user looking for the best tools, Stanley is here to serve you.

Stanley is proud of its reputation for excellence. We are dedicated to continually testing, designing and improving our products to ensure quality and maximum function. Maintaining our standing of being the world's best at what we do is important to us and what you expect from a name like Stanley.

The Stanley Works, originally a bolt and door hardware manufacturing company located in New Britain, Connecticut; was founded in 1843 by Frederick T. Stanley. A few years later, in 1857, Frederick's cousin, Henry Stanley, founded The Stanley Rule and Level Company.

In 1920, The Rule and Level Company merged with The Stanley Works and would go on to become its famous Hand Tools Division.

Over the years, The Stanley Works has produced some of the most innovative and useful tools ever made. Among these tools are the Bailey® Plane, the Surform® shaper, the PowerLock® tape rule and most recently the FatMax™ line of products. Today, more than ever, Stanley continues to be an industry leader in hand tool innovation.
