

THERMATEX® Sonic modern ceiling raft

■ THERMATEX® Sonic modern is a mineral fibre ceiling raft with an aluminium frame. The rafts are delivered in one piece and installation-ready and can be easily fixed using the provided hangers.

The fleece-covered surface of THERMATEX® Sonic modern ceiling raft is white by default, though it can be customised by choosing any colour or pattern. Due to the acoustic filling the mineral tile offers exceptional sound absorption performance.

Installation

The rafts are suspended using four cables. The suspension system ensures that it is quick and simple to install and adjust the rafts.

TECHNICAL PERFORMANCE
